GAS HOB

Dual Flame Control

Why Choose Dual Flame Control?

High Flame Intensity

Experience enhanced flavours aka 'wok hei' with burners offering maximum power of up to 5kW.

Triple Ring Burner

Achieve better heat distribution and a uniform cooking of the food.

Precise Heat Control

Enjoy greater flexibility with Dual Flame Control. On low heating, the inner ring produces a smaller flame suitable for slow cooking and simmering.

By adjusting the knob to high heating, the outer ring produces a bigger flame for rapid boiling and frying.

▪ Battery Ignition

▪ Fully Sealed Burner Base
(Except for EFH 7623 HM VGB)

▪ Cast Iron Pan Support

▪ Flame Failure Safety Control
